ROWEN HUTCHINS

ACTIVE SECRET SECURITY CLEARANCE

Lakeland, FL | 404-578-7769 | rowen.hutchins@gmail.com
rowenhutchins.com | github.com/rowenhutchins-cmd

OBJECTIVE

Full-stack developer combining hands-on experience in React, JavaScript, and MySQL with proven leadership, technical troubleshooting, and logistics experience from the U.S. Army. Seeking an entry-level full-stack or front-end developer role.

TECHNICAL SKILLS

Front-End: HTML/CSS, JavaScript, React
Back-End: Python (in progress)
Databases: MySQL
Tools: Git, GitHub
Cybersecurity: Linux system administration, firewall configuration
Certifications (In Progress): CompTIA A+, Network+, Security+
Other: Hardware & network troubleshooting, systems diagnostics, inventory & logistics tracking software

EXPERIENCE

Ammunition Specialist — *U.S. Army* 2021 – Present

- Managed inventory, tracking, and logistics for munitions and equipment across domestic and overseas assignments, including a 9-month deployment in Germany.
- Enforced strict safety and compliance standards for the handling and storage of hazardous materials, maintaining a zero-incident record.
- Trained and supervised fellow soldiers on operating procedures, safety protocols, and equipment handling.
- Used digital tracking systems to maintain accurate, audit-ready inventory records — experience directly applicable to working with structured data and systems logic in software development.
- Served as a Non-Commissioned Officer (NCO), leading, teaching, and holding direct responsibility for a team of soldiers.

ATM Technician — *Peachtree ATMs* 2019 – 2021

- Diagnosed and resolved hardware, software, and network issues on ATM units, including performing software resets and installing system updates.
- Took over an additional service route on short notice, doubling coverage while family managed a health issue, without missing a service call.
- Maintained a consistent response time of under 24 hours across all service requests.
- Communicated directly with customers and vendors to explain issues, coordinate repairs, and ensure satisfaction.
- Applied systematic troubleshooting to electronics and networking problems — a foundational skill set now being extended into debugging and problem-solving in code.

PROJECTS

Several original coding projects are deployed and viewable at rowenhutchins.com, with source code available at github.com/rowenhutchins-cmd.

EDUCATION

Associate of Science in Aeronautical Science (In Progress)
Embry-Riddle Aeronautical University | Expected Graduation: 2027

Cybersecurity Track (In Progress)
Central Texas College | CompTIA A+, Network+, Security+; Linux & Firewall Configuration coursework
